Tiles up to 10mm thickness

EURO OVERLENGTH DRAINS - DUAL OUTLETS

*RECOMMENDED

\$800

\$940

15 YEAR WARRANTY

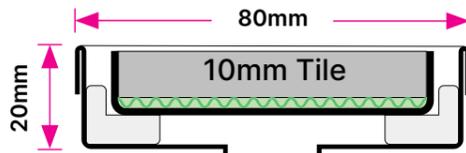

24 HOUR TURNAROUND

1801 ~ 2000

NEW

2001 ~ 2400 MAX

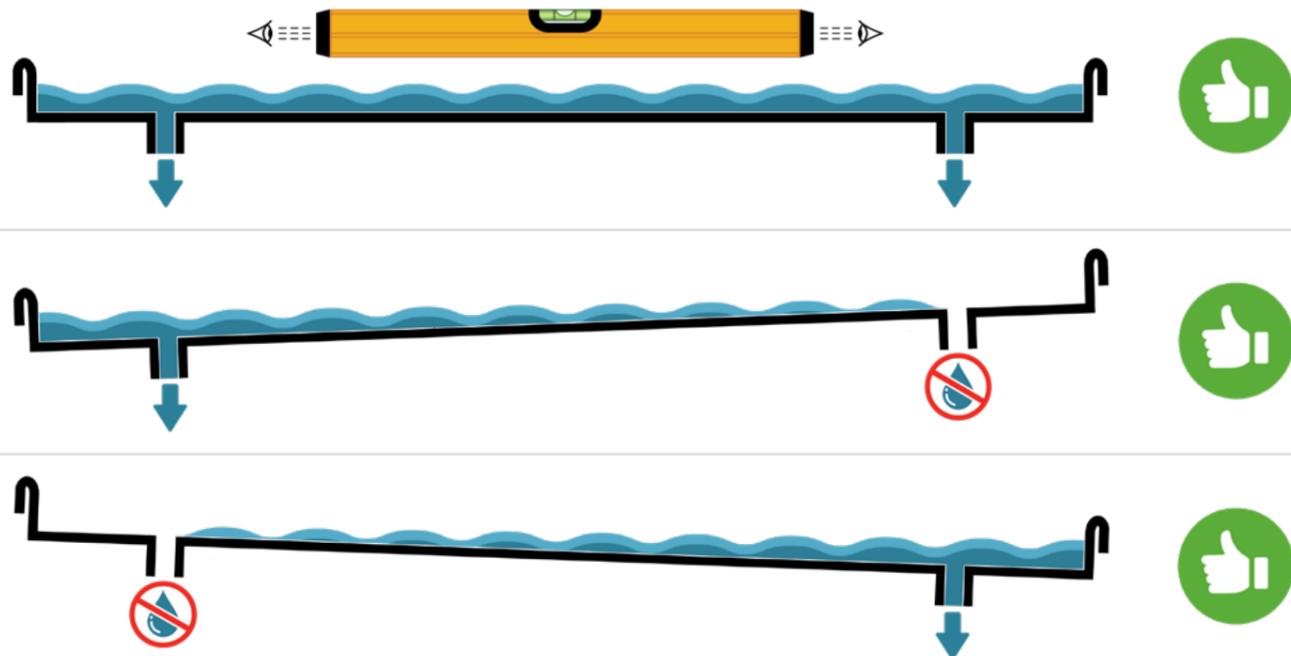

TILES UP TO 10mm THICKNESS

Two piece tile pan inserts for all channel drains exceeding 1800mm

WHY WE RECOMMEND DUAL OUTLETS?

- For channel drains exceeding 1800mm in length, we recommend Dual Drainage Outlets.
 - **Not all floors are tiled level!** Dual Outlets guarantee your channel will always drain.
- Ask your plumber to install Dual PVC J Gully outlets for "100% Peace of Mind."

EURO OVERLENGTH DRAINS - SINGLE OUTLETS

\$1050

\$1250

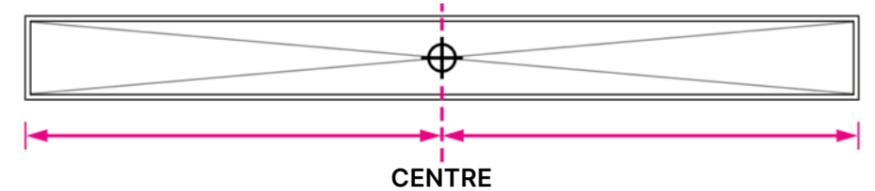

15 YEAR WARRANTY

3 WEEK TURNAROUND

1801 ~ 2000

2001 ~ 2400 MAX

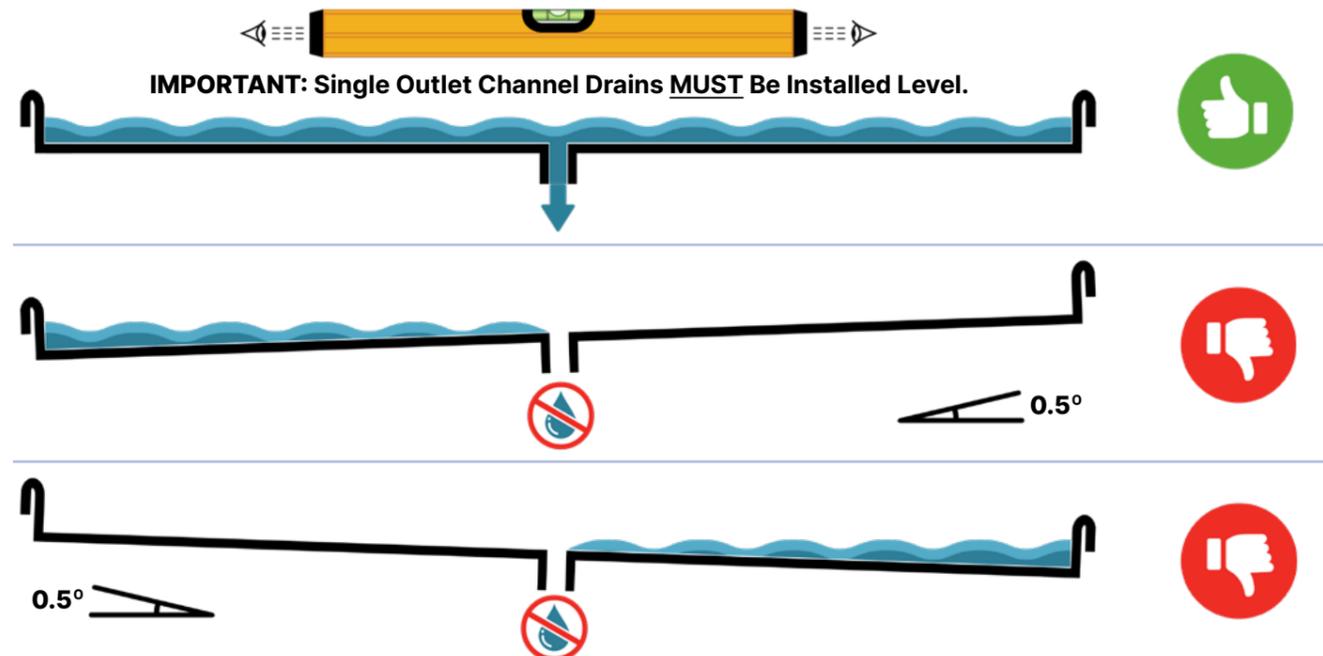

NOTE:

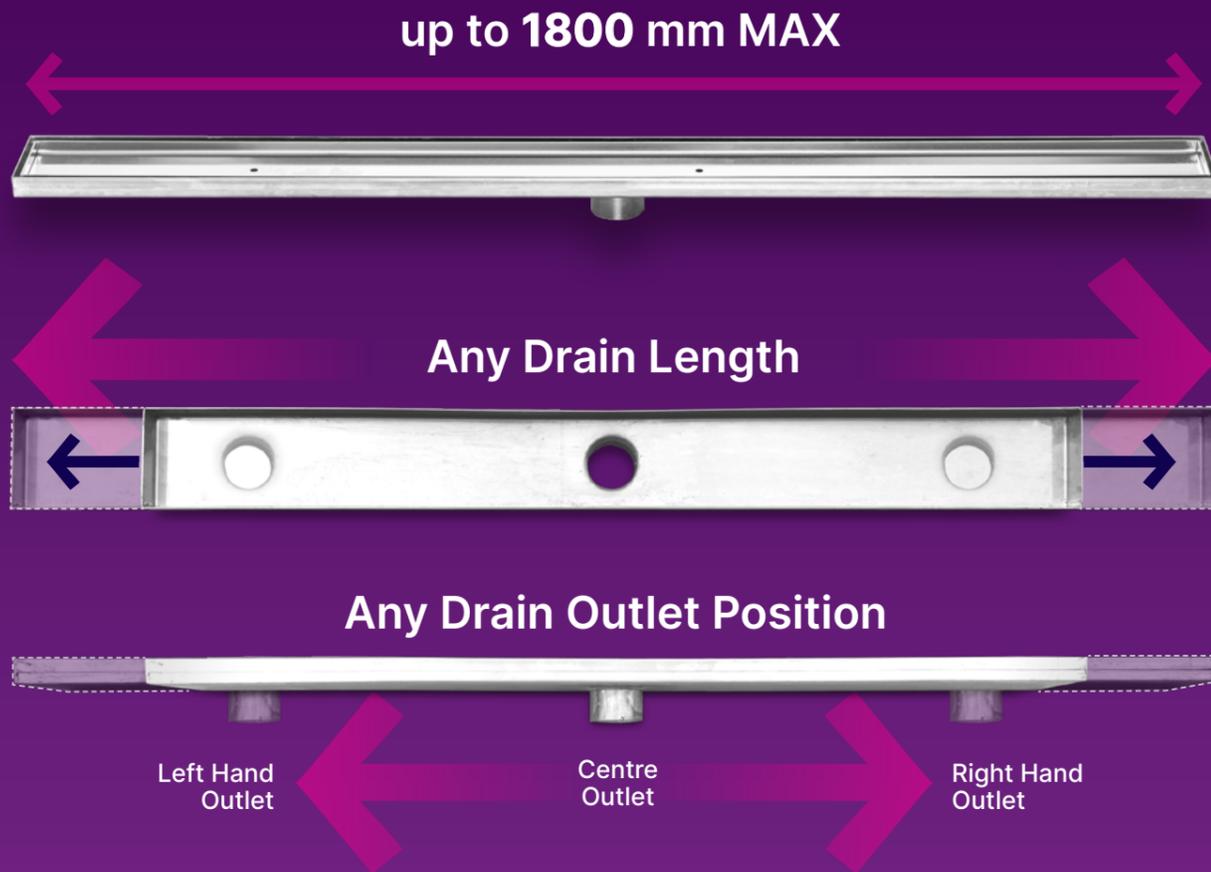

Channel drains exceeding 1800mm in length have tile insert pans supplied in two pieces, **divided evenly** at centre of drain. This reduces tile insert weight for removal during cleaning.

LIMITATIONS OF OVERLENGTH SINGLE OUTLET CHANNELS?

- Channel drains exceeding 1800mm with a Single Outlet **MUST** be installed level. Failure to comply may result in the channel drain ponding or not draining correctly.
- **Drain Outlet Position:** Maximum distance for any drain outlet from either end of the drain pan is 1200mm (maximum) - Drains exceeding this criteria will require Dual Outlets.
- Technical questions or design specification requests contact us at 021 944 813 / sales@drainsonline.co.nz

IMPORTANT: Single Outlet Channel Drains **MUST** Be Installed Level.

\$400 up to 1000

\$480 1001 ~ 1200

\$600 1201 ~ 1500

\$720 1501 ~ 1800 MAX

Prices indicated are for (standard finish) in stainless steel.

No order form required for standard channel.

EURO CHANNEL DRAIN STANDARD FINISHES

Stainless Steel
(Standard)

Brushed Nickel
0 mm ~ 1200 mm \$50
1201 mm ~ 1800 mm \$75

! POWDER-COATED FINISHES (NO WARRANTY) OPTIONAL EXTRA

Drains Online does not offer a warranty or performance guarantee for powder-coated finishes on the Euro range of stainless-steel channel drains. This is due to limitations in chemical pre-treatment standards and the demanding conditions of shower environments—such as moisture, water exposure, and harsh cleaning agents—which may cause the coating to blister, crack, or peel over time.

We recommend selecting the Stainless-Steel finish, which is backed by a 15-year warranty for long-term durability and performance.

Maximum powder coat length 1800mm.

Allow additional 7 working days for powder-coated finishes ex-works.

Available finishes include:

Matte Black
0 mm ~ 1200 mm \$165
1201 mm ~ 1800 mm \$245

Gun Metal
0 mm ~ 1200 mm \$165
1201 mm ~ 1800 mm \$245

Brushed Brass
0 mm ~ 1200 mm \$165
1201 mm ~ 1800 mm \$245

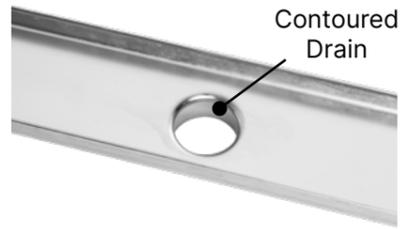

Aged Bronze
0 mm ~ 1200 mm \$165
1201 mm ~ 1800 mm \$245

EURO CHANNEL DRAIN MEASURE GUIDE

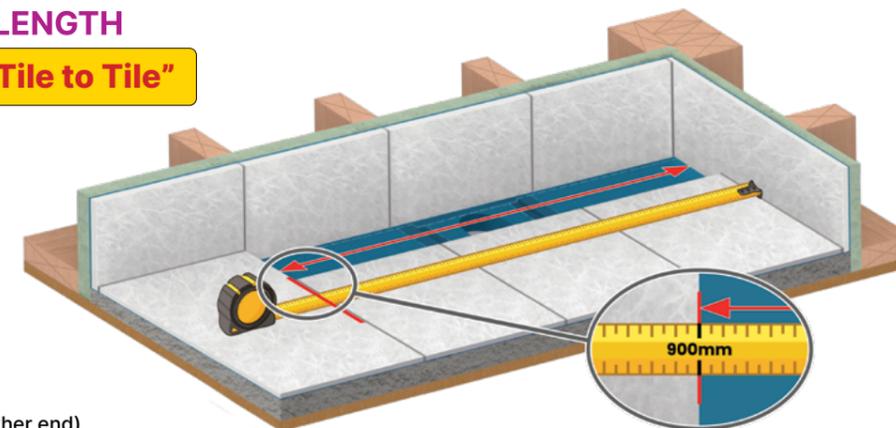

STEP 1

MEASURING DRAIN LENGTH

All Measurements "Tile to Tile"

Instructions:
 Tile-to-Tile Length
 - Deduct 5mm
 = Drain Length

Example:
 900
 - 5
895mm
 (5mm = 2.5mm Silicone Gap at either end)

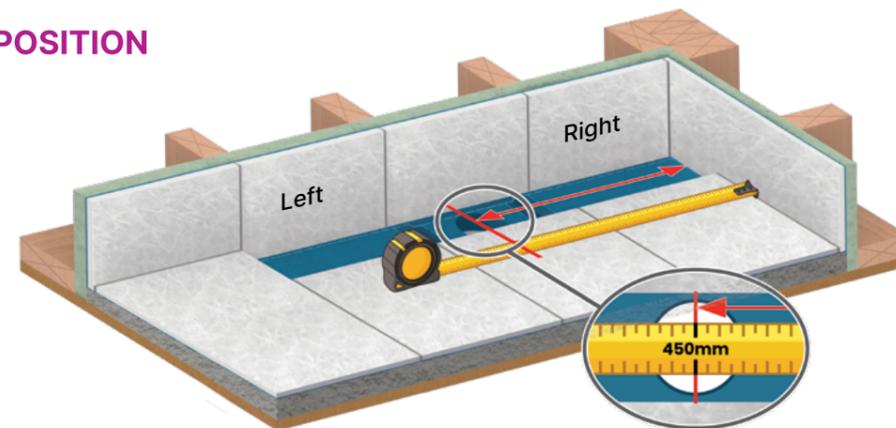

STEP 2

MEASURING DRAIN POSITION

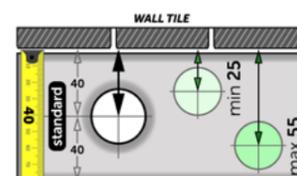

Instructions:
 Tile-to-Centre-of-Drain
 - Deduct 2mm
 = Drain Outlet Position

Example:
 450
 - 2
448mm
 (2mm = Silicone Gap)

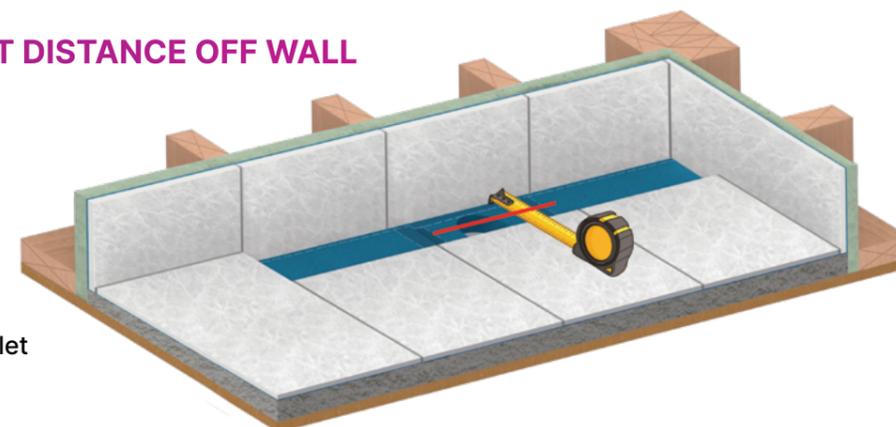

STEP 3

MEASURING OUTLET DISTANCE OFF WALL

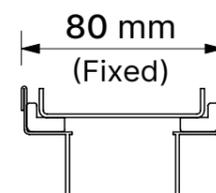

Example:
 Measure from Tiled Back Wall to Centre of Drain Outlet
40mm (Standard)

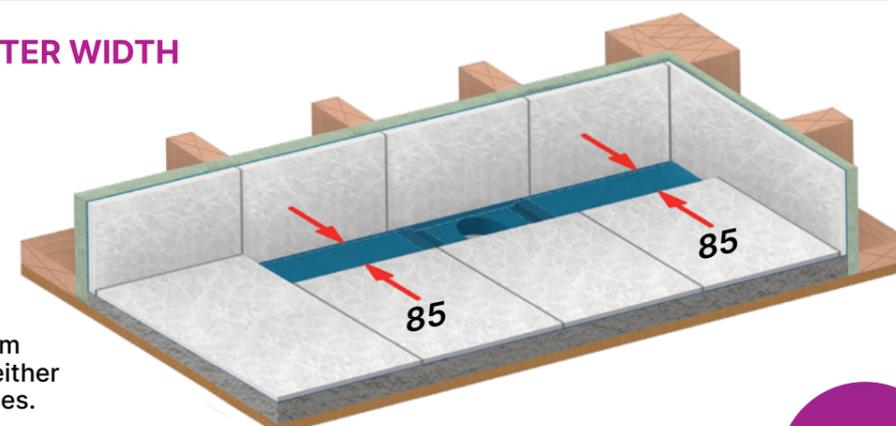

STEP 4

ENSURE 85MM GUTTER WIDTH

IMPORTANT:
 Channel Gutter Width 85mm allows for 2.5mm Silicone either side of Channel Drain to Tiles.

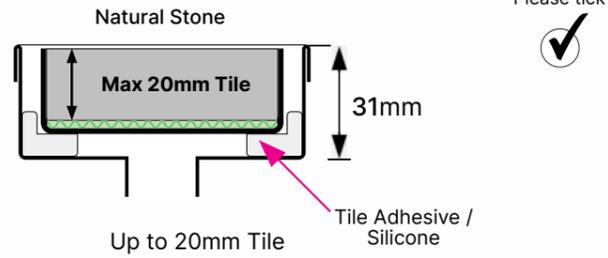

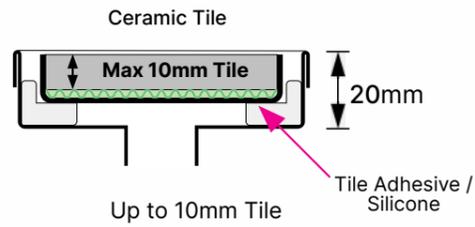

Euro Custom Channel Drain Order Form - SINGLE OUTLET
